

THE REG A CONFERENCE

A DealFlow Event

PRESENTING COMPANY GUIDE

New York City | May 9

TheRegAConference.com

The Reg A Conference

The Reg A Conference is the largest gathering of deal-makers and companies interested in networking and discussion of Regulation A. This is a prime opportunity for prospective issuers to network with like-minded business executives, as well as financial professionals who assist in bringing capital to companies.

Presenting companies have the unique opportunity to enjoy all the benefits of conference participation plus the added benefit of a 5-minute speaking slot to present to investors in the main auditorium.

Your company's presentation will be available via Livestream, expanding your audience to thousands of investors watching the presentation online.

The Reg A Conference is hosted by DealFlow Events, which since 2003 has provided independent research and investment forums. If you're new to DealFlow Events, just ask around. Over 20,000 people have participated in our events so chances are good that you'll know someone who knows us.

The Best Education

Great events always begin with great programming. For this reason, we make sure the topics we cover are the ones of greatest interest to companies raising capital. The latest agenda is posted on TheRegAConference.com

Networking with Investors

The Reg A Conference offers an opportunity to network with prospective investors and deal-makers. What makes our conferences so successful is the large turnout we draw from the professional investment community.
